DETAILED ACTION

Allowable Subject Matter

Claims 1-13 allowed.

The following is an examiner's statement of reasons for allowance: Several prior art documents have been collected, but two documents are most relevant to demonstrate the state of the art:

JP 2004-27177 A

WO 01/10958 A1

The claimed invention from the aforementioned claims of the instant application is neither disclosed nor rendered obvious by either of said most relevant documents. The instant application claims MgO powdered material with a "double oxide" coating with a magnesium oxide coating thereon with a phosphorus mass of 0.1 to 10%.

Regarding JP 2004-27177 A, the art discloses MgO powdered filler with a "double oxide" coating, which is the inner coating in the instant application. However, it fails to disclose the magnesium phosphate outer coating. The examiner feels said magnesium phosphate coating renders the instant application novel and non-obvious over this prior art reference.

Regarding WO 01/10958 A1, the art discloses MgO powdered filler that has been surface treated with an organic phosphate acid ester. Although this is a phosphate ester, the mechanism through which it makes the particle hydrophobic is through a fatty carbon chain, which the instant application doesn't claim or imply. Therefore, the examiner agrees that the magnesium phosphate compound disclosed in the instant

application is novel and non-obvious over organic phosphate ester acid disclosed in this prior art reference.

Hence, in the opinion of the examiner, the claimed invention conforms to the statutory regulations set forth by 35 U.S.C. and administrative rules set forth by 37 C.F.R. and is thus allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James W. Taylor, II whose telephone number is (571)270-5457. The examiner can normally be reached on 7:30 am to 5:00 pm (off every other Friday).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Larry Tarazano can be reached on (571) 272-1515. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
